

XXVI. INPP INTERNATIONAL CONFERENCE

16th and 17th May 2020 in Bratislava, Slovakia

«DIFFERENT ASPECTS OF MULTIDISCIPLINARY CHILD AND ADULT CLIENT CARE»

Looking beyond the symptoms of specific learning and behavior difficulties, under-achievement, emotional and psycho-social problems from the perspective of specialists in educational and healthcare systems and private practice.

XXVI. INPP International Conference opens a forum for discussion and exchange of knowledge from professional fields allied to Medicine, Psychology and Pedagogy focusing on various aspects of child development and child and adult dysfunctions. Experts from different countries will share with participants the knowledge and experience of both practice and research in the areas of neuromotor development, metabolism and nutrition, auditory and visual functioning and psyche.

The conference is intended for:

Professionals dealing with child and adult care presenting with difficulties in aspects of education, behavior, sensory processing, physical and psychological functioning. The conference is also aimed at professionals in the fields of Pedagogy, Psychology, Speech and Language Therapy, Ergotherapy, Optometry, Physiotherapy, Pediatrics and other related areas.
